Datasets

- ▶ 2021 Homeless Housing Resources by State
- ▶ Hackathon 2022 Homeless Demographic Data
- ▶ Hackathon 2022 Housing Data to Support Homeless

SOLUTION

An app with homeless support as its main objective. While also being used for services purposes for venders.

SOLUTION OBJECTIVES

Objective 1

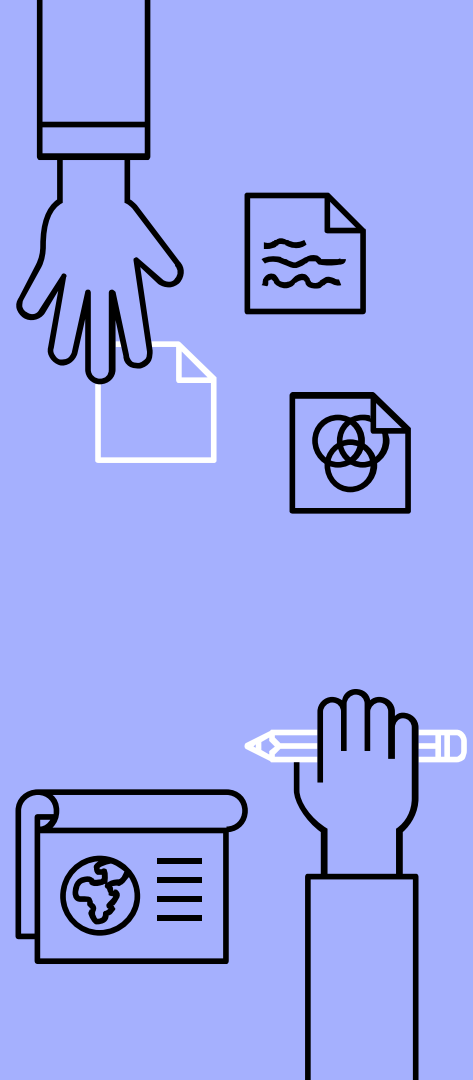

To be able to measure and improve the services provided by the vendors to the homeless

Objective 2

To help homeless to access services such housing, food bank, and clinics near him

Objective 3

To Connect vendors with homeless.
